## **A Call for Working Group Participants** ASSE asks industry professionals to participate in the creation of the new Series 10000

**Westlake, Ohio, September 9, 2009** — The American Society of Sanitary Engineering is forming a working group for the new ASSE Series10000, a Professional Qualifications Standard for Installers and Inspectors of Sustainable Mechanical Systems. The working group, which is chaired by IAPMO's Director of Special Services, Dave Viola, is being formed in order to create the new ASSE Series 10000. This standard will include Water Conservation, Energy Efficiency, Carbon Footprints, and many other sustainable systems.

Any interested party, especially installers, inspectors, surveyors, manufacturers, engineers, building owners, code officials and fire industry personnel, are invited to attend and participate.
