## **A Call for Working Group Participants** ASSE asks industry professionals to participate in the revision and re-creation of the new Series 11000

**Westlake, Ohio, August 19, 2009** — The American Society of Sanitary Engineering is forming a working group for the new ASSE Series 11000, a Professional Qualifications Standard for High Purity Water Systems Installers. The working group, which is chaired by Sidney Cavanaugh of Cavanaugh Consulting, is being formed in order to review the former ASME A112.20.1-2004 Standard and to make any necessary revisions and additions to the new ASSE Series 11000 Professional Qualifications Standard.

Any interested party, especially installers, inspectors, surveyors, manufacturers, engineers, building owners, code officials and fire industry personnel, are invited to attend and participate.
