

THESE PHRASES  
**DO NOT** MEAN  
THAT A PRODUCT  
IS ASSE LISTED:

- “ meets the requirements of ... ”
- “ tested to ... ”
- “ complies with ... ”
- “ in compliance with ... ”
- “ meets and exceeds the standard ... ”

## A picture is worth a thousand words

Only those products that have been tested by an independent ASSE listed testing laboratory, have been reviewed by the ASSE International Seal Control Board and have been found to be in compliance with the appropriate product standard can display the ASSE Seal. If your code requires an ASSE listing, **be sure that the product displays the ASSE Seal.**

*If you would like ASSE International to give a presentation on the Product Listing or Standards Development program, please email Executive Director Scott Hamilton at [scott.hamilton@asse-plumbing.org](mailto:scott.hamilton@asse-plumbing.org).*
