

# ASSE International

## Product Standards Committee Meeting Agenda

Tuesday, April 15, 2025

1:00pm – 2:30pm

The scope of the Product Standards Committee of ASSE International shall be the development of product standards which incorporate test procedures for assemblies, devices, fixtures, appliances, and materials pertaining to plumbing and piping systems which are in the interest of protecting the public health. These product standards shall include requirements for safety, health, and performance. They may also include requirements such as construction, maintenance and operation of equipment and materials for plumbing and piping systems.
