Proposal for Change

Standard Number: _____
Standard Title: _____

Instructions

This form is used to submit proposed revisions to an ASSE standard. Proposals may be submitted for new requirements, revisions to existing requirements, clarifications, editorial corrections, deletions, or other improvements that enhance the usability, accuracy, or effectiveness of a standard.

When preparing a proposal:

- Identify the applicable standard designation and title.
- Identify the relevant section, table, figure, or annex affected by the proposed change.
- Clearly show proposed revisions using tracked changes:
  - Deletions shall be shown using strikeout text.
  - Additions shall be shown using underlined text.
- Provide complete replacement text where necessary to ensure the proposal can be fully understood without interpretation.
- Include supporting rationale explaining the need for the proposed change and the benefit of its adoption.
- Include supporting documentation, technical data, research, or other substantiation when available.

Submission Requirements

Proposals shall contain the following information:

- "Proposal for Change" in the subject line;
- Standard designation (number);
- Relevant section, table, or figure number, as applicable;
- Wording of the proposed change, tracking the changes between the original and proposed wording; and
- Rationale for the change.

Submission Methods

Completed forms may be submitted by email to standards@asse-plumbing.org.

Review Process

All proposals receive documented consideration in accordance with the applicable standards development procedures. Proposed changes may be assigned to a consensus body, technical subcommittee, or working group for review and may be incorporated into an active standards development project, as appropriate.
